

N SONA

Software Engineer | Full Stack Developer

sonanagarajan076@gmail.com | +91 9363481454 | LinkedIn | GitHub | Portfolio

Professional Summary

Software Engineer and Computer Science undergraduate with hands-on experience in Full Stack Development using React.js, Django, Spring Boot, Node.js, PostgreSQL, MySQL, and MongoDB. Skilled in developing scalable REST APIs, responsive web applications, database-driven systems, and real-time communication solutions. Strong understanding of software engineering principles, UI/UX design, and modern web technologies.

Technical Skills

Languages: Java, JavaScript, SQL, C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Redux

Backend: Django, Django REST Framework (DRF), Spring Boot, Node.js, Express.js, JPA

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, GitHub, VS Code, AWS (Basics), Azure (Basics)

Concepts: REST APIs, Authentication, Authorization, WebSocket, SDLC, Responsive Design, UI/UX

Experience

DTSkill AI - AI Developer Intern

Feb 2026 – Present

- Developing RESTful APIs using Django and Django REST Framework.
- Implementing CRUD operations, filtering, ordering, pagination, and validation logic.
- Working with PostgreSQL for database management and optimization.
- Creating serializers, viewsets, and reusable backend components.
- Implementing exception handling and standardized API responses.
- Collaborating through Git and GitHub in an Agile development environment.

HAQTO Technologies Pvt. Ltd. | Frontend/UI Intern

Jul 2025 – Aug 2025

- Developed responsive user interfaces using HTML, CSS, JavaScript, and React.js.
- Designed scalable UI components using Figma Auto Layout and Constraints.
- Collaborated with developers to improve usability and frontend performance.
- Gained hands-on experience in Software Development Life Cycle practices.

Infosys Springboard | Java Full Stack Virtual Internship 6.0

Sep 2025 – Nov 2025

- Trained in Java, Spring Boot, JPA, REST APIs, and MySQL.
- Developed a Campus Lost and Found System using React.js and Spring Boot.
- Implemented role-based access control and real-time communication features.

Projects

CampusTrack: Intelligent Lost & Found Locator

React.js | Spring Boot | MySQL | WebSocket

- Developed a full-stack platform for managing campus lost-and-found items.
- Implemented item reporting, search, filtering, and status tracking.
- Integrated WebSocket-based real-time chat between students.
- Built secure REST APIs with role-based access control.

Inventory Management System

Django REST Framework | PostgreSQL | React.js

- Developed REST APIs for inventory, category, and product management.
- Implemented filtering, ordering, pagination, and validation mechanisms.
- Designed relational database models and optimized queries.
- Built reusable serializers and modular backend architecture.

Spotify Clone

React.js | Node.js | MongoDB

- Developed music streaming functionality including play, pause, seek, and volume controls.
- Implemented playlist management and persistent storage using MongoDB.
- Built responsive UI using React.js and Tailwind CSS.

MediBook – Medical Appointment Booking System

Java | JDBC | MySQL

- Developed appointment booking and doctor management functionality.
- Implemented symptom-based doctor recommendation workflow.
- Managed patient, doctor, and appointment records using JDBC and MySQL.

Education

Government College of Technology, Coimbatore B.E. Computer Science and Engineering CGPA: 8.1/10	2022 – 2026
Government Higher Secondary School, Devarshola HSC: 92.33%	2021 – 2022
Government High School, Nellakotta SSLC: 98%	2019 – 2020

Certifications

- Infosys Springboard Java Full Stack Virtual Internship 6.0
- Frontend/UI Internship - HAQTO Technologies Pvt. Ltd.

Languages

English, Tamil, Kannada, Malayalam
